SAMYUKTHA KURAPATI

Angular / React Developer | Frontend-Focused Full-Stack Developer

Vermillion, South Dakota, USA | +1-605-585-6186

kurapatisamyuktha@gmail.com | LinkedIn

Professional Summary

Frontend-focused Full-Stack Developer with 3+ years of professional experience building scalable, responsive, and user-centric web applications using Angular, React, TypeScript, and JavaScript. Strong expertise in developing reusable UI components, implementing state management with NgRx and Redux, and translating Figma designs into responsive interfaces. Hands-on experience with Node.js, RESTful APIs, PostgreSQL, and SQL for full-stack application development. Experienced in Agile/Scrum environments with a strong focus on clean code, performance optimization, debugging, and maintainable software architecture.

Technical Skills

Frontend Development: Angular, React, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

UI Frameworks & State Management: Angular Material, NG Zorro (Ant Design), Material UI, NgRx, Redux

Backend Development: Node.js, RESTful APIs, API Integration

Databases: PostgreSQL, SQL

Development Tools: Git, GitHub, Figma

Testing & Methodologies: Jasmine, Karma, Unit Testing, Agile, Scrum

Professional Experience

Graduate Assistant, Continuing and Distance Education January 2026 – Present
University of South Dakota *Vermillion, SD*

- Support online and distance learning programs through administrative coordination and student assistance.
- Collaborate with faculty and staff to manage digital course materials and learning platforms such as D2L.
- Assist in organizing continuing education initiatives and ensuring effective communication with remote learners.

Angular Developer May 2021 – October 2024
Crav Technologies *Hyderabad, India*

- Led development and maintenance of scalable Angular applications for enterprise clients.
- Implemented advanced state management using NgRx, improving application stability and maintainability.
- Integrated frontend applications with Node.js-based REST APIs, ensuring secure and efficient data flow.
- Worked with PostgreSQL and SQL databases to support complex business logic and transactional workflows.
- Optimized application performance through lazy loading, code splitting, and API optimization, reducing load times significantly.
- Translated Figma designs into responsive, pixel-perfect UI components using Angular Material and NG Zorro.
- Built reusable components and shared services, accelerating feature development across projects.
- Conducted code reviews and enforced clean coding standards and best practices.
- Actively participated in Agile ceremonies including sprint planning, grooming, and retrospectives.
- Debugged and resolved production issues, improving application reliability and user experience.
- Authored technical documentation to support onboarding and long-term maintainability.

Tech Stack: Angular, TypeScript, JavaScript, Node.js, PostgreSQL, NgRx, Angular Material, Git

Key Achievements

- Reduced page load times by 25% through Angular module optimization and lazy loading.
- Successfully delivered an enterprise-grade Loan Management System (LMS) handling complex financial workflows and API integrations.
- Improved overall code quality and deployment stability through structured reviews and testing.

Projects

Dealer Management System (DMS) *Angular, Angular Material, Node.js, PostgreSQL*

- Developed a platform for managing dealer loans and EMI calculations.
- Integrated REST APIs and database-driven workflows for real-time financial data handling.

Project Link

Loan Management System (LMS) *Angular, NG Zorro, Node.js*

- Built a scalable loan management solution handling complex business logic and secure API integrations.

Pharma Lite *React, Material UI*

- Contributed to UI/UX development and performance optimization for a medical pharmacy application.

Project Link

TALFA *Angular, Angular Material*

- Designed and implemented a feature-rich frontend directly from Figma mockups.

SEABURY Labs *Angular, NG Zorro*

- Developed workflow-heavy loan management features with seamless API communication.

Project Link

Education

Master of Science (M.S.) in Computer Science 2025 – 2027
University of South Dakota *Vermillion, South Dakota, USA*

GPA: 4.0 / 4.0

Bachelor of Technology (B.Tech) in Electronics and Communications Engineering 2015 – 2019
Acharya Nagarjuna University *Guntur, Andhra Pradesh, India*

CGPA: 7.96 / 10

Certifications

- Full Stack Developer Certification — CCBP (2020)

Professional Development

- Regular participant in Angular conferences, workshops, and advanced online courses.
- Continuous learning in Angular, NgRx, Node.js, and full-stack development best practices.

Key Strengths

- Strong problem-solving and debugging skills
- Performance-focused development mindset
- Clean, scalable, and maintainable code practices
- Excellent communication and cross-team collaboration
